October 30, 2017

Dear Town Council and Citizens of Carolina Beach,

On October 24th, I published an open letter discussing the potential costs, disposal sites and contacts I have had with MOTSU regarding the Lake Dredging Project. In that letter, I announced that we would be meeting with Colonel Marc Mueller at the Wastewater Treatment Plant on October 30th to discuss the issues with the project.

Mayor Dan Wilcox and Councilman Gary Doetsch joined me at today's meeting as we toured the Wastewater Treatment Plant, explaining how the Town utilizes this part of the Sunny Point property. The tone of our discussions was positive, genuinely constructive, and focused toward finding common solutions. The Colonel and his staff presented various concerns and we discussed several options to resolving our current situation, however no decisions were made. The Colonel and his staff will continue to review the issue and will contact us soon regarding a path forward. Overall, the meeting and tour of the facility was helpful in gaining a better understanding of our collective needs and the importance of the facility to both parties. Once we receive word from the Colonel, we will schedule a special council workshop to discuss the future of the Lake Dredging Project.

If you have questions, please feel free to contact me by phone at (910) 458-2994, or by email at michael.cramer@carolinabeach.org.

Sincerely,

Michael Cramer
Town Manager
