

Business Owners: In compliance with Section 106 of the NC Fire Code, all commercial businesses are required to have a periodic inspection in the time frame specified for the purpose of identifying activities and conditions in buildings, structures, and premises that pose dangers of fire explosion, or related hazards in order to preserve and to protect public health and safety. This schedule is produced for your convenience in knowing the month and year of your next scheduled inspection. Please note that this schedule is a work in progress and will be revised on a periodic basis to adjust for seasonal businesses, new business openings, mis-spellings, etc. Some names given are for location reference only. Please feel free to e-mail the Inspections Department at towncalabash@atmc.net and leave a message for any corrections.
